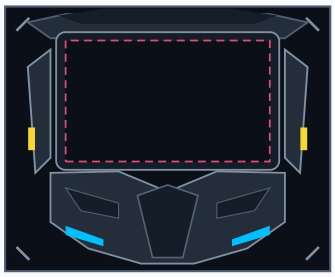
EXACT SIZE: outer box 43 × 35 × 33 mm | sticker surfaces only

These decals fit the OUTSIDE of your box. Dry-fit and align before peeling.



FRONT

43 × 35 mm / OLED

BACK

43 × 35 mm

RIGHT SIDE / USB-C

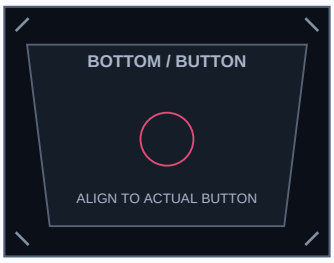
33 × 35 mm

LEFT SIDE

33 × 35 mm

TOP / KEYRING

43 × 33 mm



BOTTOM / BUTTON

43 × 33 mm

HOLE / CUTOUT NOTES

PINK DOTTED LINE

= tentative opening.

OLED window 27 × 16 mm

Check screen + PCB first.

USB and button holes:

mark using real parts.

Do not rely on image

measurements alone.

BLUE/YELLOW graphics

are PRINTED accents.

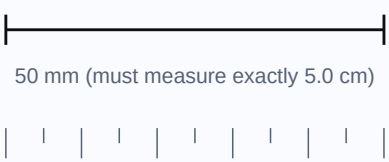
Button is underneath.

USB-C is RIGHT side.

Keyring requires a

reinforced metal eyelet.

PRINT CALIBRATION — measure after printing



50 mm (must measure exactly 5.0 cm)

PRINT 100% / ACTUAL SIZE / NO FIT-TO-PAGE

Use matte sticker paper. Keep all printed design elements inside their black panel outlines.

IMPORTANT: If printed via Canva, export as PDF Print and check the 50 mm line again.

These are BOX panels, not the sticker decals on page 1.

Layout assumes front/back plates cover walls; top/bottom fit BETWEEN the two side panels.

FRONT
43 × 35 mm

BACK
43 × 35 mm

RIGHT
35 × 27 mm

LEFT
35 × 27 mm

TOP
37 × 27 mm

BOTTOM
37 × 27 mm

OPTIONAL FLAT MASK DETAILS — cut from spare 3mm Sintra

The mask stickers already include this look — physical layered armor is OPTIONAL.

Important build tolerances

1. Dry-fit OLED, ESP32C3, LiPo and button before gluing any wall.
2. Right-side USB-C port and bottom button positions must be transferred from the actual assembled parts.
3. Avoid drilling/soldering near a connected LiPo. Isolate battery power first.
4. Strengthen the keyring loop with a separate metal eyelet/washer; never rely on one layer of Sintra.
5. Front OLED window guide on sticker sheet is preliminary; trace actual screen aperture before cutting.
6. Print at 100% and verify 50 mm calibration line on the first page.

BOX OUTER SIZE 43 × 35 × 33 mm / INNER CLEARANCE ~37 × 29 × 27 mm
